Upper Academy Summer Reading Activities
Grades 6-8

TECHNOLOGICAL INVESTMENT

We are recommending that, whenever possible, students invest in one hour per week of i-Ready. The i-Ready Online Instructional Platform will continue to be accessible through July 30th for at-home use for students who were enrolled in grades K-8 during the 2022-2023 school year. The enrichment lessons are geared towards preparing students for their future grade level during the 2023-2024 school year.

PRINT RICH INVESTMENT

This year's K-12 District Summer Reading Plan will make available free eBook platforms to ensure that students and their families do not incur a cost to participate in literacy initiatives. Check out the following website which provides free eBook platforms that support summer reading selections:
<http://read.dadeschools.net>

Students are to select TWO books (1 fiction AND 1 non-fiction) that are at their independent reading level and/or above it (stretch level) as indicated on the Growth Report from their i-Ready Diagnostic testing. Their reading investments will be evaluated by accurately completing 2 of the below-mentioned book project options that focus on high-order thinking as required by the English Language Arts B.E.S.T. Standards.

Assignments must be completed as Word documents and saved after editing, with colorful diagrams/pictures to enhance the presentation. These should be representative of a quality investment (12 pt. font - Times New Roman/Arial/Calibri, double-spaced, 1-3 pages in length).

Select **TWO** of the following (one assignment per book):

1. Character Diary: Compose at least six half-page journal entries as if you were the main character in the story. Write down events that happen during the story (beginning, middle, and ending), reflecting on how they affected the character and why.
2. Dramatic Monologue (ideal for fiction selections): Speaking from a first-person POV, embody a character in a specific scene. Convey what they are thinking and feeling at that moment in the narrative. Consider who they are communicating with, what is their objective, and what challenges/conflicts stand in the way of achieving said goal.
3. Artistic Work (quilt square, needlework, painting, sculpture, mixed media art, etc.): As you read the book, think about the important concepts, images, or themes of the book. Design a piece that incorporates these ideas, images, or themes and reflects the book. The piece should measure at least 9 x 9 inches. In a paragraph explain why you chose the images, colors, media, etc. for your work, include at least 5 quotations that influenced your artistic choices.
4. Video Book Talk (ideal for non-fiction selections): Design and produce a commercial to "sell" your book and hook readers. The video should be at least 5 minutes long. Review the book, explaining its strengths as well as your own recommendations or similar/related books. Be sure to explain what type of reader will enjoy this book and why. You must choose at least 5 quotations from the book and in a paragraph explain their significance and how these passages affected the review.
5. Museum Exhibit (ideal for non-fiction selections): Create a museum exhibit, or a digital version of a museum exhibit, to explain, demonstrate, or illustrate key ideas or concepts from your book.

Your exhibit must include at least 5 elements. Elements can include objects, pictures of objects, demonstrations, videos, photos, primary documents, etc. You must include a paragraph for each element explaining what it is and how it relates to the topic.

NOTE: All reading investments will be submitted at the beginning of the 2023-2024 school year via the Schoology platform. This will facilitate the collection and evaluation of these assignments during the first weeks of school. All written work must evidence that each student's individual academic investment has been maximized. *Hence, procrastination will not serve you well!*

Mathematics Summer Assignment for Upper Academy Students

<https://www.khanacademy.org>

****All incoming Upper Academy students are expected to begin the 2022-2023 school year with 100% fluency in Reflex Math (multiplication/division). Incoming Upper Academy students are also required to work on the Khan Academy lessons listed below for whichever grade/course they will be entering. Please note that the more you practice/master in Khan Academy, the better for you and the maintenance of your Math skills. The graded requirement will be based on what percent you achieve. *IT IS THE RESPONSIBILITY OF EACH STUDENT TO HAVE THEIR USERNAME AND PASSWORD TO THEIR KHAN ACADEMY ACCOUNT AND TO REGISTER FOR THEIR CORRECT COURSE.**
