Students are required to take one course from each core academic area, one world language, and one elective. While the administration will try to assign electives based on students' preferences, this cannot be guaranteed. The administration reserves the right to make changes to student schedules and holds the final authority on course assignments.

All students with a FAST Reading Level 1 or 2 will be required to take a reading class instead of an elective. Additionally, students with a FAST Math Level 1 or 2 may be assigned an extra math class in place of an elective.
